

**SASKATCHEW
BEACH
SASKATCHEWA**

The Red lines show the route of the collection truck and sides of streets carts can be placed for collection with no restrictions.

This area has to be properly maintained for winter collection.

These bays are only serviceable when dry and clear of ice and snow. Otherwise collection will occur on Willow Ave.

These streets the collection truck needs to reverse out.

Not a through road, carts not on accessible stretch need to be placed at turn around location. The symbol "●" indicates this area must be maintained as turn around spots to continue service.

Neptune, Brighton, Sweet grass and Lilly are not serviced by carts, residents are asked to use the Front End bins provided. Please refer to the "X" as location of these bins.
